

# Hobsonville Plant Network

## Grand Opening

Saturday 12 June, 10am - 2pm  
1 Buckley Ave, Hobsonville Point

Come see what we are doing, what's happening with the development, and how you can be involved. Drinks and nibbles are provided. Workshops are free.

### Workshop Programme

- 10:30 Composting Workshop:** Looking at a variety of ways to compost your food waste and garden waste at home.
- 11:30 Landscaping with Natives:** Did you know Hobsonville Point has rare and threatened native species? Come learn about this unique ecology and how you can use natives in your yard. Hear about our planting events on Hobsonville Point.
- 12:30 Household Sustainability Workshop:** Interested in cutting your water and energy bills? Want to make your house warmer and healthier? Learn some easy tips here at HPN.
- 1:00 Planting Garlic:** June is the time of year to plant garlic. Come and get some tips before planting your garlic at home.

At The Hobsonville Plant Network we are aiming to...

- Help protect and sustain the history and ecology of the area.
- Build a plant network to grow native and edible plants for use by the developers and nearby residents.
- Provide a community space for householders to come and ask questions about gardening, weed control, composting, landscaping and other related activities.
- Increase the knowledge and capacity in local industries.
